Parents question Q: The school starting time change- why?

-- It was DOE decision, we did not want to change time but it had to be changed due to bus schedule agreement and teacher start times, We have latest possible start time, we do not have grace period, students must be in school at start time which is 8:20

-- We try to utilize the best of the limited amount of time kids are in school, please be on time

- First 15 min of the school day is very important and if they are late, they are missing a big part of the school day

- We cannot open the door earlier at 8:20 to get kids seated due to the labor contract for teachers

Ms. Darrel comment on absence:

The school has an issue with high number of students with “ chronic absence” marked by DOE record due to extensive vacation taken by parents.

-100 students are “chronically absent” due to extended vacations, there are parents who leave in April and come back in October due to “cheaper plane tickets for vacation”

-10 days absence in a school year (90%) child will be in danger of being marked “chronically absent” in DOE record, if they are sick they will be marked as sick

-If your children has 10 days of absence, your kids will be in jeopardy of repeating the grade

Parents question: Q: What if we provide a doctor’s note ?

--It does not change the absence record but it will be noted

-Absence is %, child who is absent 3 days already are coded as “chronically absent”

- You will get letter for absence warning, automatically generated and mailed out

Q: What about a case where child is enrolled in the native country’s school during the vacation? -

Parents who enroll children in the school for education should communicate with school/principle, we would like to know this information
